SBIP Report

The School Based In-service Program was held on Saturday 25th July, 2015 at Rangjung LSS on Classroom Management and Active Learning Pedagogy. Although it encompasses four modules but for now we have touched on the first Module, ‘Who am I?’ only. The remaining modules will be carried out the following Saturdays whenever possible.

The program was facilitated by Mrs Sangay Wangm (VP), Mrs Tshering Choden and Mr. Yeshey Dorji teachers of the school for the duration of 2 hours. The participants comprised of all the teaching and supporting staff of the school. The main objectives of the SBIP are to empower teachers so that one can deal with the challenges of the classroom more effectively and shall lead to the improvement of academic performance of students.

The facilitators presented designed activities to define ‘who am I?’ with the help of the materials like projector, charts, markers and handouts. The facilitators reinforced that teaching is a part of a greater purpose since we as teachers touch the future of our students and therefore must strive to shape and mould them into a better citizens of tomorrow. The participants were also refreshed on good qualities and characteristics that one must possess as a teacher to be a role model in the school community since a lifetime of conditioning affects ones perceptions.

Finally, the facilitators concluded by reiterating that we see the world not as it is but as we are or as we are conditioned to see it and related it with the next topic by saying that even our children have their own perceptions and learn differently. So the next SBIP will be on Differentiated Instructions which would cater to the needs of different learners in a classroom.
